

DEBRIS HAULERS LLC

Storm Debris Removal & FEMA Disaster Recovery

CAPABILITY SUMMARY

Debris Haulers LLC supports city, county, state, and federal agencies with storm debris removal and disaster recovery operations. Our services are structured for emergency response, recovery support, and procurement-ready execution aligned with agency direction.

CORE COMPETENCIES

- Storm debris removal and hauling
- Vegetative and construction & demolition (C&D) debris management
- Emergency debris clearance and right-of-way access restoration
- FEMA-aligned disaster recovery support (as directed)
- Municipal, county, and state contract support

DIFFERENTIATORS

- Rapid mobilization for declared and undeclared events
- Scalable truck and crew deployment for surge operations
- Documentation-ready field execution and reporting cadence
- Safety-first operational standards
- Government-focused scope (public sector operations)

PAST PERFORMANCE

- Storm debris hauling support for municipal operations
- Emergency debris clearance following severe weather events
- Subcontractor and partner support on public-sector response efforts
